## MONTESSORI CLASSES FOR AGES 3-7

Montessori de Palos Verdes will begin classes in September for children from three to seven years of age.

Founded by Lawrence W. Werner Jr., 5251 Rolling Ridge Road, Palos Verdes Estates, the non-profit, non-sectarian school uses the world-famed methods and philosophy developed by Dr. Maria Montessori, Italian than 50 years ago.

Known as the Montessori system, it is based on the premise that a child is limited only by his attitude in taking full measure of his own potentials.

"We believe," Werner said "that by stimulating the child's natural curiosity and encouraging his initiative, the Montessori system will enable him to develop a positive and eager attitude toward learning. This he will carry throughout his life."

Werner explained that the school's approach to learning is non-competitive. He said the child is free to proceed from project to project as quickly as his interest develops and as rapidly as he is able to grasp the subject matter.

The Palos Verdes school has been formed with the guidance and cooperation of the American Montessori Society. Classes will be conducted by teachers trained and experienced in the Montessori system.

Werner said the daily program will include instruction in writing, reading and

arithmetic, as well as social studies, creative arts, science foreign language, music, physical education and plant and animal life.

"Classes will be held from 8:45 a.m. to 2:30 p.m.," Werner said, "with nap periods for the younger children."

Further information regarding the school and applications for beginning children may be obtained by calling 377-6660.
